**SECTION III - Justification:**

- Novell currently running 11.0.2 core ERP, Siebel CRM, PSFt HR, positions Oracle to then begin to replace the existing CRM vendor (Siebel) and the HR vendor (Peoplesoft).
- Evaluating migration to single applications vendor
- Migration to E-Business suite would position Oracle to take lead in eval.
- Conversion to E-Business Suite only licenses the users they currently have today w/ Oracle.
- Would not impact future user licenses as new products are adopted.
- Would help expedite 11i upgrade. Upgrade to 11.0.3 originally planned.
- November is support renewal time and they are incented to get this done now.

*Additional Background on waiving mins:*

The request is to waive employee mins. The number of professional users is being done per Oracle policy. The reason to waive employee mins is that they do not use any self service capabilities at this time. Novell is in the planning stages to decide roll out of additional users and functionality. Purpose of this transaction is to migrate the existing module users to ebusiness and set the table for replacing Seibel and Peoplesoft plus introduce the new functionality.

The current number of concurrent users that they have now is:

GENERAL LEDGER	30
ASSETS	30
RECEIVABLES	30
PAYABLES	30
MASTER SCHEDULING/MRP	30

WEB SUPPLIER	2

Per Oracle policy the customer should license 600 ebusiness professional users which we are doing. They should also license 600 ebusiness employee users which we are asking to license 200 to match their previous licenses of Web employees and Web customers.
